INFORMATION DISCLOSURE STATEMENT – CONCISE
EXPLANATION OF EACH NON-ENGLISH DOCUMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The following is submitted in the above application in compliance with 37 CFR 1.97 and 37 CFR 1.98: a concise explanation of the non-English document(s) cited in the PTO-1449 and any Search Report or communication from a non-US patent office or an International Search Report from an International Searching Authority for a patent application filed via the Patent Cooperation Treaty or document (s) cited in the application or the priority application. The concise explanation is based on an English language abstract available from publicly accessible databases of patents and non-patent documents or a translation, even if only partial, of the cited non-English documents. The concise explanation is not based on a review of a full text translation of the cited document:

Document

Concise Explanation

FR. 2781140

A method of controlling a radiology device, of the type having a source of X-rays and a reception of the X-rays after the rays have crossed a part of an object body, in which a three-dimensional image of the part is reconstructed from a series of two-dimensional images. The two-dimensional of the three-dimensional images are produced at different angles of incidence, the angles of incidence facilitating the best visualization of the part of the body are selected. The angles of incidence are supplied to the device for positioning with a view to an intervention or procedure on the part of the object's body under fluoroscopy allowing a visualization in real-time of two-dimensional images.
